---

Two fugitives try to stop an alien invasion that reproduce by sodomizing men. Yeah, like all the others, I also do love this picture! Although it is a low budget movie, the shootout-scenes (in the Alien-Bar) are very well done. It almost seems that John Woo has directed this scene! The humor of the film is actually comparable with Peter Jackson's Bad Taste! Have a look at the Alien-Bosses at the end of the film...they look like the puppets of "Sesame-Street"! (allusion of "Meet the Feebles"?) The actors are not so well known, but the locations (mostly in the "Comarca de Guadix", Granada) like the town Abla, where the Alien-Bar is, are known by Spaghetti-Western Freaks! Near Abla is La Calahorra e.g. There were shot many scenes from "Once upon a time in the West" Must be seen!!!! This is a wonderful zombie flick that should appeal to everyone who likes zombie films with a dose of humor. Don't be bothered by the extremely poor rating. With films like these, a poor rating is actually a good rating because it means that mainstream viewers hate it. About the story: Two guys escape from prison. They hijack a hot chick and her car. Then they visit a friend, collect some guns, and go to a big gangster boss who owes them money. It turn out, however, that the gangster boss is very inhuman in the literal sense... Mucha Sange has been described as a "film that Tarantino would have made if he were Spanish and knew how to make a good zombie flick". It has everything you can ever wish for in a zombie movie: Cool characters, heavy metal music, fantastic settings, just the right dose of humor, crazy gunfights, an almost surreal chainsaw scene, a hot sex scene with a very hot chick, good actors, I could go on forever.

See this movie. You won't regret it. But don't see it with friends who are not into this kind of movies. It's clearly a zombie film made by fans for the fans. 7cb1d79195
